Min. Ticket Purchase for Event performances – Example – Orlando Magic, NASCAR, Orlando Solar Bears

*ticket prices change each year, roughly \$14-\$40 per ticket, total number of tickets needed to be sold by the group will be divided by the number of dance families on the team. In the event your child can not attend a performance they will still be required to sell the min. number of tickets. These tickets are often discounted so selling to friends, families, or on FB Garage sale pages is not too difficult.
